Johnson & Johnson Challenge Organization Overview

Johnson & Johnson is the world's most comprehensive and broadly based manufacturer of health care products, as well as a provider of related services for the consumer, pharmaceutical and medical devices and diagnostics markets. Comprising more than 250 operating companies in 60 countries, Johnson & Johnson employs more than 110,000 people worldwide. The Johnson & Johnson Family of Companies and their partners in health care touch the lives of over one billion people every day throughout the world.

Johnson & Johnson has a long history of working to reduce the environmental impacts of internal operations, promote workplace safety, and care for the health and well-being of employees. In addition, the company works closely with its suppliers to set goals for sustainability. The Johnson & Johnson companies strive to purchase from suppliers who protect and promote worker health and safety and provide materials and services with a reduced or positive environmental impact. From reducing the company's own footprint to assisting external manufacturers and suppliers in reducing theirs, the Johnson & Johnson Family of Companies is making a positive impact on the environment.
